Information Systems Associates Provides Revenue Guidance and Announces Strategic Relationship

Information Systems Associates Reports Revenue in Excess of $160,000 for the Quarter Ended September 30, 2011

STUART, Fla., Oct. 20, 2011 (GLOBE NEWSWIRE) -- Information Systems Associates, Inc. (OTCQB:IOSA), a leading provider of Mobile Data Center Management systems and turnkey data center management solutions, today provides revenue guidance and announces a new strategic relationship.

Information Systems Associates ("ISA") reports that revenues exceeded $160,000 for the quarter ended September 30, 2011 representing an increase of $85,000 or 113% from the preceding quarter ended June 30, 2011. Furthermore, the Company also reports that it has already received purchase orders in excess of $180,000 for services to be completed in the fourth quarter ending December 31, 2011.

In addition, ISA has recently signed an affiliate partner agreement with Optimum Path Systems, Inc. ("OPS"), the makers of the Visual Data Center software. This agreement expands ISA's Data Center Infrastructure Management (DCIM) consulting business, and validates ISA's leadership position in the marketplace.

Joe Coschera, Information Systems Associates' CEO, said "We are very pleased with the revenue growth from the second to third quarter of 2011 and the continuing growth into the fourth quarter of 2011. These results demonstrate that our efforts in the first and second quarters to reposition the Company as a proactive selling organization with software and services products sold into the Data Center market are gaining traction. We are also very excited about our new strategic relationship with OPS. This agreement, which enhances our DCIM consulting services, puts ISA at the forefront of one of the fastest growing markets in technology."

Steven Webel, Optimum Path Systems' COO, commented, "We look forward to a long term and mutually successful partnership with ISA. They truly provide complementary services and technology to our Visual Data Center software platform which, combined, enable more efficient operations and management of the data center facility."
