Duos Technologies announces the appointment of Noel A. Heiks as President and COO of its operating entity Duos Technologies, Inc.

JACKSONVILLE, FL -- (Marketwired) -- 02/20/18 -- Duos Technologies Group, Inc. (OTCQB: DUOT) -- With a career spanning over twenty years in the technology space, Ms. Heiks' numerous accomplishments as an entrepreneur and a C-Level executive in both operational and business development roles, make her an outstanding addition to our company's senior management team. Her impressive science, technology and engineering background are a valuable combination to effectively lead our business development, engineering and operations teams. Ms. Heiks has a strong track record of translating complicated technology concepts to client solutions while remaining focused on technology commercialization. She has worked within multiple industry sectors including defense, government and commercial entities and has been instrumental in driving business growth through direct customer relations with large organizations. Ms. Heiks has successfully completed several M&A transactions on both the buy and sell side. She has also bought and sold patent portfolios and has been involved in fund-raising, selling companies, and licensing technologies. Her mission is to drive disruptive technologies from theoretical research into practical applications for large, international markets. With a BS in Physics, and an MS in Electrical Engineering from Virginia Tech, Ms. Heiks is a perfect fit to take responsibility for the day-to-day operations. Ms. Heiks will play a significant role in shaping the path to our Company's expected growth.
